

STATE OF INDIANA

2006 Open Enrollment ~ Service Areas

Next to each carrier's name is a list of the counties representing the service area. Even though a county may be included in the service area that does not ensure there is a provider located in that same county. It is very important to contact the plan to make sure a provider is located in that county and accepting new patients. Call the plans to find out if you are able to enroll based on the service area requirements.
